

ONE IOTA

One Iota are an alt-indie, power-pop band based in York, England. Formed in 2020, they were originally a three-piece tribute to The Beatles, but used the time during lockdown to write original music inspired by their musical heroes. With influences ranging from Queen, Crowded House, Squeeze, Bowie, Coldplay as well, of course, as The Beatles, One Iota pride themselves on infectious melodies, rich harmonies and more hooks than a cloakroom! In 2021 the band went to Abbey Road studios in London to finish recording their debut album, 'More Than You Take', from which the singles have been picking up regular UK radio airplay.

The Band:

Adam Dawson - Vocals, Keyboards & Guitars
Andrew Bowen - Vocals, Lead guitar
